Summary table

Criteria	Supporting features	Remarks and explanations
Section 1194.21: Software Applications and Operating Systems	Supported. Please refer to attached detailed VPAT.	
Section 1194.22: Web-based internet information and applications	Supported. Please refer to attached detailed VPAT.	
Section 1194.23: Telecommunications Products		GroupWise Migrator for Exchange is not considered to be a telecommunications product.
Section 1194.24: Video and Multi-media Products		GroupWise Migrator for Exchange is not considered to be a video or multimedia product.
Section 1194.25: Self-Contained, Closed Products		GroupWise Migrator for Exchange is not considered to be a self-contained product.
Section 1194.26: Desktop and Portable Computers		GroupWise Migrator for Exchange is software as defined under section 1194.21.
Section 1194.31: Functional Performance Criteria	Supported. Please refer to attached detailed VPAT.	
Section 1194.41: Information, Documentation and Support	Supported. Please refer to attached detailed VPAT.	

Section 1194.21 Software applications and operating systems

Criteria	Supporting features	Remarks and explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Supported with minor exceptions.	Keyboard access is provided throughout GroupWise Migrator for Exchange and its help system. Keyboard shortcuts, shortcut keys and menu commands are readily available. Minor exceptions in GroupWise Migrator for Exchange involve limited numbers of commands
(b.i) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards.	Supported.	GroupWise Migrator for Exchange does not disable nor disrupt any accessibility feature of other products.
(b.ii) Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Supported.	GroupWise Migrator for Exchange does not disable nor disrupt any accessibility feature of the operating system. GroupWise Migrator for Exchange supports accessibility functions of the operating system, including StickyKeys, FilterKeys, MouseKeys and High Contrast.
(c.i) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes.	Supported.	GroupWise Migrator for Exchange supports standard Windows interfaces to provide visual on-screen focus and tracking throughout.
(c.ii) The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.	Supported.	GroupWise Migrator for Exchange supports standard Windows interfaces to provide visual on-screen focus and tracking throughout.
(d.i) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology.	Supported.	GroupWise Migrator for Exchange provides sufficient information about user interface elements so that Assistive Technology can determine their identity, state and operation.
(d.ii) When an image represents a program element, the information conveyed by the image must also be available in text.	Not Applicable.	GroupWise Migrator for Exchange does not utilize images to convey information.
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Supported.	GroupWise Migrator for Exchange uses consistent iconography throughout.
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supported.	GroupWise Migrator for Exchange uses standard system functions to send textual information to the operating system.
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supported.	GroupWise Migrator for Exchange does not override user selected display settings.
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Supported.	GroupWise Migrator for Exchange does not use animation to display critical information to the user. GroupWise Migrator for Exchange does use some animation for progress indicators, but the information provided by the animation is also provided via text.
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Not Applicable.	GroupWise Migrator for Exchange does not use color as the only means of conveying information, prompting for response or distinguishing a visual element.
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Not Applicable.	GroupWise Migrator for Exchange does not provide users with the means to adjust display settings. GroupWise Migrator for Exchange does support the operating system display settings.
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Not Applicable.	GroupWise Migrator for Exchange does not use flashing or blinking elements.

Voluntary Product Accessibility

<p>(1) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</p>	<p>Supported.</p>	<p>Screen elements are designed using the standard Windows methods for labeling controls, setting focus and using consistent tab order.</p>

Section 1194.22 Web-based internet information and applications

Criteria	Supporting features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supported.	GroupWise Migrator for Exchange log viewer interface provides textual information from Web-based content which does provide a text equivalent for non-text elements, typically thought the "ALT" field.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not Applicable.	GroupWise Migrator for Exchange does not use multimedia presentations.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supported.	The web pages available from the log viewer of GroupWise Migrator for Exchange use content and markup to make information available without color.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supported.	The web pages available from the log viewer of GroupWise Migrator for Exchange are readable without associated style sheets.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable.	GroupWise Migrator for Exchange does not use server-side image maps.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable.	GroupWise Migrator for Exchange does not use client-side image maps.
(g) Row and column headers shall be identified for data tables.	Not Applicable.	GroupWise Migrator for Exchange does not use web-based data tables.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Not Applicable.	GroupWise Migrator for Exchange does not use web-based data tables.
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not Applicable.	GroupWise Migrator for Exchange does not use frames in the web-based content.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supported.	GroupWise Migrator for Exchange does not use flickering.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not Applicable.	GroupWise Migrator for Exchange does not use web content that lacks textual representation.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supported.	The scripted elements on web pages available from the log viewer of GroupWise Migrator for Exchange provides functional text for Assistive Technology.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Supported.	GroupWise Migrator for Exchange provides links for any required plugs-in and applets.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supported.	GroupWise Migrator for Exchange provides text instructions to assist the user process web-based forms using Assistive Technology.
(o) A method shall be provided that permits users to skip repetitive navigation links.	Not Applicable.	The web-based pages available through GroupWise Migrator for Exchange do not have repetitive navigation links.
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable.	The web-based pages available through GroupWise Migrator for Exchange do not require the user to respond within a specified time for any operations.

Section 1194.31 Functional performance criteria

Criteria	Supporting features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Supported when combined with Compatible Assistive Technology.	GroupWise Migrator for Exchange supports technologies that make computer programs more accessible to people who use Assistive Technology. GroupWise Migrator for Exchange supports the use of screen readers to access user interface information. Commonly-used Assistive Technology may be used with GroupWise Migrator for Exchange. Users of Assistive Technology should contact their Assistive Technology vendor to assess the compatibility of their product. The operating system magnifier application is available to magnify both images and texts displayed in all wizards' dialogs
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Supported.	GroupWise Migrator for Exchange supports the use of screen readers to access Windows user interface and web-based content. The operating system magnifier application is available to magnify text.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Supported.	GroupWise Migrator for Exchange does not require user hearing for any application functionality.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Supported.	GroupWise Migrator for Exchange does not require user hearing for any application functionality.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Supported.	GroupWise Migrator for Exchange does not require voice recognition for any application functionality.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported.	GroupWise Migrator for Exchange supports operating system tools such as StickyKeys, OnScreen Keyboard, MouseKeys and FilterKeys. Users can use the 'Tab' key to navigate through the Windows user interface and the web-based content displayed in the log viewer.

Section 1194.41 Information, Documentation and Support

Criteria	Supporting features	Remarks and explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge	Supported.	GroupWise Migrator for Exchange on-line documentation is provided in digital, compressed HTML format. This documentation is completely accessible via the Help application supplied with Microsoft Windows.
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported.	GroupWise Migrator for Exchange on-line documentation includes a top-level link to "Options" which explains how to customize the help options for GroupWise Migrator for Exchange. The documentation for GroupWise Migrator for Exchange includes complete information on product navigation. However, it does not include system and user-defined shortcut keys.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supported.	Quest Software's Support Services is familiar with such features as keyboard access and other options important to people with disabilities. For technical assistance in the United States, you can contact Quest Software Support Services on a text telephone at (800) 306-9329 between 5:00 A.M. and 5:00 P.M. Pacific Time, Monday through Friday, excluding holidays.
